LLM agents • Multimodal interactive intelligence

EDUCATION

Aug. 2024 – Present	Fudan University & Shanghai Innovation Institute (SII) Ph.D. in Computer Science (joint program)	Shanghai, China Advisor: Prof. Pengfei Liu
Sept. 2020 – Jun. 2024	Fudan University B.Sc. in Computer Science	Shanghai, China Outstanding Graduate (top $\approx$ 10%)

INDUSTRY EXPERIENCE

Jul. 2025 – Dec. 2025	Tencent Hunyuan Research Intern — Frontier Visual Reasoning	Shanghai, China
• Agentic data and evaluation. Led the construction of a geolocalization benchmark and synthesized multi-turn tool-use trajectories with Gemini and SeedVL for multimodal agents. • Data collection and curation. Collected and filtered data at scale from open-source datasets and Google Maps and Mapillary APIs, with VLM-based labeling. • Model training and validation. Applied hierarchical annotation, supervised fine-tuning (SFT), and multi-node reinforcement learning (RL); validated data quality on open Qwen models and supported internal frontier-model development.
